

INTERNATIONAL SCHOOL

International Schools
(online and on-campus
programs)

Samara City

Samara city is located in the southeastern part of European Russia on the eastern bank of the Volga River. Samara is called the space capital of Russia.

Samara is one of the largest cities in Russia. Its population is over 1,170,000 citizens.

Now the city is an important political, industrial and cultural center of Russia. The city is a busy communication hub and an important center of the aerospace, automotive, chemical and energy industries.

Samara is known for the production of aerospace launch vehicles, satellites, aircraft, various engines and chemical products.

The city experiences a humid continental climate. The average temperature reaches +20...+28°C in July.

Samara National Research University

Samara National Research University (Samara University) is one of the most dynamically developing Russian universities. The University is formed by the union of Samara State Aerospace (**founded 1942**) and Samara State (**founded 1969**) universities. In recent years, the university has been steadily improving its performance in Russian and international rankings.

Institute of Economics and Management

Institute of Aerospace Engineering

Institute of Engines and Power Plant Engineering

Institute of Natural Sciences

Institute of Social Sciences and Humanities

Institute of IT and Cybernetics

Institute of Law

For many years, Samara University has been inextricably linked with the overall industrial and economic development of the region, which is one of the leading domestic and world centers of aerospace technologies.

Currently, teaching and research at Samara University are organized by 7 institutes. There are many unique scientific laboratories here.

Samara University (top-10 universities in Russia) is a leading educational, research and scientific university in Samara region. More than 40 summer and winter schools on various topics were arranged by International Schools Department since 2015.

General Information About International Schools

International school is a short-term educational program on a specific field of knowledge for international students. The program can be held online or on-campus.

Online school includes the study part of a 2 hour lecture/workshop/project work via online platform and 1.5 hour cultural & social program that presents live and online excursions, virtual tours around Samara city and Russia, master classes and interactive communication.

Studying materials and presentations, records of the classes, online entertaining activities, 24/7 support of the organizational team are included.

On-campus school is a 2 week educational program at Samara University. The study part consists of lectures and workshops with the leading staff of the university. All on-campus programs consist of numerous excursions including city tour around Samara city, excursion to the aerospace museum, daily evening activities with volunteers.

The visit to laboratories, excursions to the museums, master classes and daily evening cultural program with volunteers are provided.

High Technology Management

Students with different backgrounds will get new knowledge and skills of hi-tech enterprises' management. During the studies, students will be working on a group hi-tech/digital project.

The core of the program consists in learning modern tools of project management, effective usage of lean manufacturing in high technology companies and researching the pressing issues in management, communication and marketing.

The lecturers and coaches will teach you how to create business plan, how to predict and analyze various risks, how to exercise design thinking and implement it in a project work, how to use agility in solving professional tasks.

Our friendly international schools team, entrepreneurs and mentors will lead the participants throughout the process, thus they can take a maximum of it.
