The University – Technische Universität Darmstadt

- Leading research university, founded in 1877
- First Department of Electrical Engineering in the world
- Member of the TU9 Alliance of leading German Institutes of Technology
- 13 departments and 5 interdisciplinary fields of study
- 110 degree programmes
- 27,000 students
- 4,800 international students
- Research Profile Areas: Cybersecurity, Internet and Digitalization, Matter and Radiation Science, Thermo Fluids and Interfaces, Future Energy Systems, From Material to Product Innovation, Computational Engineering

Experience!

TU Darmstadt Summer School 2017

TU Darmstadt invites talented students from our partner universities to participate in the International Summer School 2017 “German Engineering and Language”. It is a unique opportunity to explore German Engineering and to learn the German language at one of the top engineering and science universities in Germany.

Students will experience the German way of life, study in an international environment and transfer credits home. A social programme with cultural activities and excursions will round up this exciting four weeks programme.

“Despite my initial lack of German, I was extremely well supported by the University, and never once felt helpless or alone.”

Jennifer Millar,
Curtin University, Australia

Programme

The International Summer School consists of four components:

- Intensive German Language Course
- Engineering Classes and Workshops
e.g. **Biomechanics, Automotive Engineering**
- Excursions to German companies
- Social Programme

During the weekends students can join our social programme or explore Europe on their own.

Eligibility

- Undergraduate students at a partner university
www.tu-darmstadt.de/international/partneruniversities
- Nomination through home institution

Deadline: May 1st, 2017

Academic Credit

6-8 ECTS *

Costs

Administration fee: € 300

- Including public transport, health insurance, student union

Programme fee: € 1,500

- Including language courses, academic classes & projects, course materials, company visits and social activities
- Discount available for nominated students. Please contact us.

Not included are travel and living expenses:

- Accommodation (incl. breakfast) will be provided: € 750

Information and Application Process
